We're excited to share **Rosé All Day 9%** – a naturally lighter, gently sparkling addition to one of the top-selling French rosés in the United States. Rosé All Day expands its portfolio to serve both loyal fans and consumers looking for lower and no-alcohol options without compromising on taste or experience.

Crafted from an early harvest, the wine reaches 9% ABV **naturally** – with no dealcoholization or manipulation. We've added a touch of effervescence, resulting in a refreshingly bright, lifted version of our signature rosé.

The result? Everything you love about Rosé All Day with less alcohol, fewer calories and a celebratory sparkle. It's light, crisp, and perfect for extended occasions, daytime sipping, or simply when you want something a bit more sessionable.
