Acidity: 3.3 | **Fermentation:** 55 to 62 °F

We chose the Languedoc-Roussillon region of France for Rosé All Day because of the areas increased focus on Quality. It shares many of the terrain and climate characteristics with the neighboring regions of Southern Rhone and Provence, however this region offers far greater value.

Our rosé has an elegant aromatic nose of watermelon and strawberry and is crisp and fresh on the palate with a deliciously long fruity finish.

Pair with everything from fish, chicken and sushi to salads and appetizers. And most definitely enjoyed with friends.

Serve well chilled.
